

The Third Annual *WealthBriefing* Channel Islands Awards 2024

SPONSORSHIP BENEFITS

OVERVIEW

We are delighted to announce the launch of **The Third *WealthBriefing* Channel Islands Awards 2024**. Independently judged by teams of experts, these awards will be bestowed on the brightest and best amongst the Channel Islands' world-renowned wealth management professionals - both teams and individuals. With the backing of the *WealthBriefing* pedigree for independence and genuine insight, winning a *WealthBriefing* Channel Islands award gives exposure not only locally but in all the major wealth management jurisdictions in which *WealthBriefing* operates.

WHY SPONSOR?

These prestigious awards recognise excellence within the wealth management, family office, and private client industries. As a sponsor they provide your business with a highly affluent, captive audience of private bankers, lawyers, accountants, financial advisors and technology providers across the wealth management sector, presenting a unique opportunity to raise or enhance your profile and to network in a dedicated business environment. Specifically, sponsorship provides the following:

- Enhanced editorial coverage across our associated international news wires (over 60,000 subscribers worldwide) in articles and announcements about the Awards programme.
- Extensive brand exposure at the Gala Awards Presentation.
- The opportunity to target an affluent market with high disposable income amongst the Event's guests.
- Excellent networking opportunities with senior decision-makers who are in attendance.
- Association with the leading international wealth management awards programme.
- The chance to develop new contacts and expand your sales network.

- Increased brand exposure within the wealth management sector generally and specifically access to a unique social media community.

In addition, all our partners have the option to put forward a senior executive to join one of our judging panels (where no conflict of interest exists). Judges have found that the process of analysing the submissions gave new insights into the operation of companies.

The raised profile that Judges received from *WealthBriefing's* articles and social media posts facilitated new business opportunities from the sector.
